

## Appendix 2

### 2002 NEFD Questionnaire

#### Forest Block Information as at 1 April 2002

1. Please answer (a) to (e). If you cannot give just one answer in each, you may need a separate sheet. If you are unsure, ring Survey Support on the number at the bottom of the page.

(a) Local authority in which the forest is located

(b) Owner's name

(c) Species group (tick one circle only)

radiata pine → go to d     Douglas-fir → go to e     other softwoods → go to 2     hard-woods → go to 2

(d) Radiata pine tending regime or intended tending regime (tick one circle only)

pruned with production thinning     pruned withOUT production thinning     unpruned with production thinning     unpruned withOUT production thinning

(e) Douglas-fir tending regime or intended tending regime

with production thinning     withOUT production thinning

2. Give the area in hectares of trees of each age, and the total area. Hectares may be given to the first decimal after the point.

## Planting and Harvesting

1. Between 1 April 2001 and 31 March 2002, did you carry out any planting or harvesting?

**yes**                       **no** → go to SECTION C  
 ↓

*You will need a separate sheet for each local authority in which you did any planting and harvesting. Please make as many copies as you need of the blank form below and fill them in. If you would like us to send you some additional copies please call Survey Support.*

2. Local authority in which this forest is located.

### 3. Planting

**Species**

**New area**

Give the area planted on a site not already in use for commercial forest growing

**Area restocked**

Give the area of clear-felled planted production which was replanted plus areas naturally regenerating

4. Of the total new area planted, how much was planted on land which had been:

Scrubland

	ha
--	----

*land predominantly covered in bracken, gorse, manuka, kanuka, or other woody species*

Unimproved pasture

	ha
--	----

*land not fertilised, with no improved pasture species sown*

Improved pasture

	ha
--	----

*land that has been fertilised and contains improved pasture species*

### 5. Harvesting

Note that 1 tonne = about 1 m<sup>3</sup>

**Species**

**Area clear-felled**

**Clear-felled volume (recovered)**

**Average age cleared-felled (area weighted)**

**Production thinning volume (recovered)**

6. Of the area clear felled between 1 April 2001 and 31 March 2002, how much area will NOT be planted in the foreseeable future?  ha

7. On 31 March 2002, what was the area awaiting replanting (ie, area clear felled which you intend to replant but have not yet replanted)?  ha
